# STREET DIRECTORY

—AND GUIDE TO—

## SUMMER RESIDENCES,

(See also List of Summer Residents on page 321.)

GIVING the location of the Streets, Places, Parks, Squares, etc., and showing what other streets and places run from them, or across them, with the number at which they intersect, taken from the official records.

From this list, the location of any number on a street, or the location of any public building, can be easily ascertained; as, for instance, wishing to know at what part of Broadway No. 220 is located, you look at Broadway upon page 23, and find that Gould Street runs from 202, and Park Street from 226, showing that 220 would come on the left, between Gould and Park Streets.

When a street crosses another, numbers (or ciphers) are given on both sides; but when it begins or ends at that street, the number is given only on the side at which it intersects. Ciphers are used where no numbers exist.

## WARD BOUNDARIES.

---

The FIRST WARD shall comprise that portion of the city embraced within a line commencing at a point at the extreme north point of the shore at Coddington Point, then following the shore of Coddington Cove to a point opposite the centre of a straight prolongation of the road running northerly from Sunset avenue, then running through the centre of said prolongation and said road, through the centres of Sunset avenue, Coddington avenue, Malbone road, Warner street, Burnside avenue, West Broadway, Marlborough street, Thames street, and Long wharf, in a continuous line, to City wharf, then around and including City wharf, and taking in all the remainder of Long wharf westerly, and following the shore, including all the wharves and docks and Coasters' Harbor Island, to the point of beginning at Coddington Point.

The SECOND WARD shall comprise that portion of the city embraced by and within a line commencing at the centre of Marlborough street at the junction of West Broadway, running across Broadway, through the centres of Bull street, Kay street, Ayrault street, and Catherine street, in a continuous line, directly across Easton's Pond to the Middletown line, then following the Middletown line to Coddington Cove, and along the shore of said cove to the line of the First Ward, and along the First Ward line to the point of beginning at Marlborough street and West Broadway.

The THIRD WARD shall comprise that portion of the city, including the docks and wharves, bounded northerly on the said First and Second Wards, and southerly on a line commencing at the centre of Kinsley's wharf at the harbor, and running thence in an easterly direction along the centre of said wharf and the centre lines of Pelham, Spring, Mill, Beach, and Buena Vista streets, continuously, and across Easton's Pond in a straight continuation of said centre of Buena Vista street, to the Middletown boundary line.

The FOURTH WARD shall comprise all that portion of the city, including the docks and wharves, bounded northerly on said Third Ward, and southerly and easterly by a line beginning at the centre of Lee's wharf at the harbor, and running easterly along the centre of said wharf and the centres of Young, Bowery, and East Bowery streets to the Annandale road, then northerly along the centre of Annandale road and Bath road, and easterly again along the centre of said Bath road to Easton's beach, and along the sea shore at said beach to the Middletown line: provided that said south line shall run northerly from the centre of Young street, and around the number seven engine house back to said centre of Young street, so as to include said engine house in the Fifth Ward.

The FIFTH WARD shall comprise all the remainder of the southern portion of the city lying south of the Fourth Ward aforesaid, including the docks and wharves.

# The Key to Success in Business.

BY A. G. SCHOLFIELD,

Principal of Scholfield's Commercial College, Providence, R. I.

Copyright 1890, by A. G. Scholfield.

The Intellectual Advantage to the Student, of the Study of  
Bookkeeping, as it is Taught in Scholfield's  
Commercial College.

There is no study that one can take up and pursue for the same limited time, that combines as much in variety, and that can so effectually discipline the mind in reasoning from cause to effect, and that can so intellectually and effectually equip him, or her, for the various duties of life as the study of Double Entry Bookkeeping under a competent teacher. This study secures to the student an easy, graceful and legible hand writing. This study compels its

students to acquire a thorough knowledge of Commercial Arithmetic as a preliminary qualification for the study of Bookkeeping. This study in its practical details, as pursued in this college, also requires its students to write all the letters of business correspondence suggested by the business which is the subject of the students' lessons. Our students are required to write all these letters and to submit them for criticism and when corrected to copy them into his Book of Forms for future reference. The laws of business to which every person's business is subject more or less, in its conduct and its records, are also here taught in all their practical details in connection with Bookkeeping.

This study embodies not only the foregoing preliminary considerations, but it calls into requisition certain fundamental governing principles, a thorough knowledge of which the student must acquire before he can commence or pursue understandingly the study of either single or double entry. Intellectually equipped with a thorough knowledge of these elementary governing principles, the student proceeds alone, aided by a competent teacher withal, to solve understandingly in the Day Book, Journal and Ledger and auxiliary books, the various actual business transactions which are the subjects of the students' lessons in both Single and Double entry. So definite, clear and available, to satisfy any inquiry which may arise in the business they represent are these business records, made under our supervision, that the student becomes at once fascinated in pursuing this very interesting and most important branch of education.

Finally, the time having come when the net gain or loss in the business of the past should be ascertained, that business the records of which are rendered in conformity with correct principles and their subordinate rules; the student proceeds to perform this task by making a Grand Balance Sheet, which sheet combines a Trial Balance, a Balance Sheet and a Profit and Loss Sheet, his Grand Balance Sheet made from the Ledger constitutes a mathematical process by which both gross and net gain or loss in the business in the past is ascertained and proven beyond a doubt. The student having intelligently solved

the profit and loss problem under consideration, proceeds to close the Profit and Loss account in the Ledger into the account or accounts to which it is subordinate. Having availed himself of the rare opportunity offered in Scholfield's Commercial College, for acquiring a thorough business education, and having under the guidance of its principal and his assistants opened a set of business books in double entry, penned their records daily, weekly and monthly, solved every problem demanded of the Accountant from day to day, and closed the business into Profit and Loss correctly and understandingly, the student realizes for the first time that he holds the intellectual key to the science of double entry bookkeeping—the key to success in business and to a competency through life. What enterprising young gentleman or lady does not covet such an accomplishment?

#### Encouragement for the Ladies.

Whilst the demands for Bookkeepers to fill places of trust and responsibility are about equally divided between Gentlemen and Ladies, there is another lucrative source of employment recently opened to ambitious and enterprising young ladies for which they should not be slow to qualify themselves, that is Shorthand and Typewriting. The demand for competent Shorthand and Typewriters is constantly increasing and is greater than the supply. The compensation for such services is from six to fifteen dollars per week.

Besides, there is no service which one can render to his or her employer which will command from the employer greater respect and consideration than that of a Shorthand and Typewriter or Bookkeeper.

Furthermore: the expert Shorthand and Typewriter is not only always in the line of promotion, but her daily practice in the line of her profession opens to her wider fields of thought, the cultivation of which qualifies its subject for a large field of usefulness.

Such are the emoluments, intellectual tendencies, aspirations and accomplishments of an accomplished and ef-

ficient Shorthand and Typewriter. Ladies will you qualify yourselves for this honorable and remunerative occupation? The increasing demand for Typewriters waits for your reply. Does the reader ask, where can this instruction be acquired most effectually? we answer, it can be acquired most effectually in Scholfield's Commercial College where Shorthand has been taught during the last thirty-six years and Typewriting has been taught during the last two years. Our machines employed in teaching Typewriting are of the three best known to the profession.

The facilities for providing situations for its graduates is not excelled if equalled, by any other school in New England.

## SCHOLFIELD'S Commercial College,

174 Westminster Street,

Providence, R. I.

---

Founded by its present proprietor, A. D. 1846, since which time this College has educated

Twelve Thousand Students.

The branches of study here taught are Writing, Bookkeeping, Commercial Arithmetic, the common English branches, Shorthand, Type Writing, Mechanical Drawing, Painting in Oil and Water Colors, Commercial Law and Business Correspondence.

### NO CLASSES.

Each student is favored with separate instruction. The superior advantages that the principal of this College possesses for securing to its student-graduates remunerative employment will be always cheerfully conferred on such students. The demand upon us for our student-graduates Accountants during the last year has been greater in favor of Ladies than of Gentlemen. Will the Ladies qualify themselves to supply such future demand? For further particulars call or send for our College Circular, which will be forwarded by mail to any address.

### DRY WELLS DEEPENED.

PUMPS TO LET. TORPEDO EXPLOSIONS.

We have the most complete and extensive outfit and the widest experience of any party in New England. With new and special tools we can sink or deepen Cement Tube Wells so that they will never go dry; have left twenty-six feet of water in a thirty inch tube. We can sink wells in ledge for one-half the price of blasting. We can show any Water Supply Committee 3,052,800 gallons

of pure water per day being pumped from our wells. We will show one drilled well earning \$25.00 per day, one earning \$5.50 per day, one \$65.00 well earning \$180.00 a year.
